

# Nurse Family Partnership

The Nurse Family Partnership program gives you an extra hand to help. When I don't want to bother the pediatrician with all my questions, I can have in-depth conversations with my nurse instead.

I like that the home visits let the nurse see the child in his own environment.

What's surprised me the most about the Nurse Family Partnership program at Project Self-Sufficiency is all the extras, like the diapers and wipes, the Thanksgiving food baskets and the toys at Christmas.

I have already recommended the Nurse Family Partnership program to one of my relatives.

It takes a village to raise a child, and Project Self-Sufficiency is the neighbor you can rely on!
